

## The Stomach Is the Target

Aim to make that strong—and digestion good—and you will keep well! No chain is stronger than its weakest link. No man is stronger than his stomach. With stomach disordered a train of diseases follow.

### Dr. Pierce's Golden Medical Discovery

Makes the stomach healthy, the liver active and the blood pure. Made from forest roots, and extracted without the use of alcohol. Sold by druggists, in liquid form at \$1.00 per bottle for over 40 years, giving general satisfaction.

If you prefer tablets as modified by R. V. Pierce, M. D., these can be had of medicine dealers or trial box by mail on receipt of 50c in stamps.

Elmer T'uel spent Sunday in Sedalia.

Mr. and Mrs. E. W. Mollenkamp spent Sunday in Higginville.

#### Best Medicine for Colds.

When a druggist recommends a remedy for colds, throat and lung troubles, you can feel sure that he knows what he is talking about. C. Lower, Druggist, of Marion, Ohio, writes of Dr. King's New Discovery: "I know Dr. King's New Discovery is the best throat and lung medicine I sell. It cured my wife of a severe bronchial cold after all other remedies failed." It will do the same for you if you are suffering with a cold or any bronchial, throat or lung cough. Keep a bottle on hand all the time for everyone in the family to use. It is a home doctor. Price 50c and \$1.00. Guaranteed by Crenshaw & Young.

Miss Josie Anderson spent Sunday in Higginville.

Mr. and Mrs. W. H. Veach spent Sunday in Kansas City.

Warren Vivion went to Kansas City Monday morning on business.

### Children Cry FOR FLETCHER'S CASTORIA

Mr. and Mrs. Otta Long spent Sunday in Higginville.

#### For the Weak and Nervous.

Tired-out, weak, nervous men and women would feel ambitious, energetic, full of life and always have a good appetite, if they would do the sensible thing for health—take Electric Bitters. Nothing better for the stomach, liver or kidneys. Thousands say they owe their lives to this wonderful home remedy. Mrs. O. Rhineault, of Vestal Center, N. Y., says: "I regard Electric Bitters as one of the greatest gifts. I can never forget what it has done for me." Get a bottle yourself and see what a difference it will make in your health. Only 50c and \$1.00. Recommended by Crenshaw & Young.

#### Let Us Launder Your Curtains.

However you may try you can't get them just right. We will wash them very carefully, starch them to hang nicely and dry them perfectly straight and square with the corners and points properly shaped. You'll like our work, and the charge is reasonable. Give your curtains to our driver.

CRAWFORD'S LAUNDRY.  
Phone 130.

Steel Cut Oats, Charcoal, Sunflower Seed, Grit, Bone, Oyster shell, everything for the chicks. Wilcoxon & Co.

Do you need a sack of Flour, you can get a 48lb. sack for \$1.10

### THE PIN TON

### Ayer's Sarsaparilla

Oldest, Safest, Strongest, Best. Standard family medicine. No alcohol. Sold for 60 years.

Ask Your Doctor.

#### Fighting Insect Pests.

(W. L. NELSON.)

Following a rather open winter, it is probable that insects may prove troublesome in the home garden and in truck patches. The following list of standard formulas, as recommended by various agricultural experiment stations, is sent out by the Missouri State Board of Agriculture, Columbia, Mo.

**Kerosene Emulsion**—Kerosene (co 1 oil) 2 gallons; rain water, 1 gallon; soap, 1/2 pound. Boil the soap in water until dissolved. While the mixture is boiling hot, turn it into the kerosene for about five minutes and until it is of a smooth, creamy nature. Before using, dilute with nine times its measure of water. Three gallons of emulsion will make thirty gallons of wash.

**Soap Wash**—Concentrated potash lye, 3 1/2 pounds; water, 7 1/2 gallons; fish oil, 1 gallon. Dilute the lye in water; boil. To the boiling solution add the fish oil. Continue to boil for two hours and then allow to cool.

**Carbolic Acid Emulsion**—Carbolic acid, 1 pint; hard soap, 1 pound; water, 1 gallon. Dissolve the soap in the boiling water and while boiling add the acid and continue to boil for a few minutes stirring thoroughly. Put the emulsion away in a tightly closed vessel and label, "Stock Solution of Carbolic Acid—Poison." Before using, dilute one part of the stock solution with fifty parts of water.

**Carbolized Plaster**—Carbolic acid, 1 pint; air slaked lime, road dust, or some other diluting medium, 50 pounds. Sprinkle or dust on the plant in the dry state.

**Tobacco Spray**—Hard soap, 1 pound; water 8 to 10 gallons; strong tobacco extract, 1 gallon. Dissolve the soap in boiling water, add the decoction and then make up 8 to 10 gallons.

**White Hellebore**—This is a powder which may be obtained at any drug store. The powder may be used dry or with water. Where water is used 1 ounce to 2 gallons of warm water is the proper proportion.

**Pyrethrum or Insect Powder**—This powder is also called Dalmatian Insect Powder and Persian Insect Powder. Like Hellebore, it is obtained from plants. To be effective, the powder must be fresh. Where used in the liquid form, use 1 ounce to 3 gallons of water. In the dry form use 1 ounce to 5 ounces of cheap flour. Mix thoroughly, allowing it to stand over night in a closed tin box, then dust on the plants through a cheese cloth.

**Poisoned Bran Mash**—Mix one half pound of Paris green in 50 pounds of bran. The poison should be added to the dry bran little by little and stirred all the time until the mass is tinged with the green color. Then add water, sweeten with sugar or molasses until the mixture is sufficiently moistened to crumble nicely through the fingers.

**Paris Green and Bordeaux Mixture**—4 pounds of fresh lime, 4 1/2 pounds of bluestone and 4 ounces of Paris green. Thoroughly mix in 40 gallons of water. The bluestone (copper sulphate) should be dissolved by suspending it in a wooden vessel containing four or five gallons of

water, and the lime slacked in another vessel. If lumpy, the lime should be strained through coarse sacking. Pour the bluestone solution into a barrel and half fill with water. Dilute the slacked lime to a half barrel and mix the two together. The Paris green should be made into a paste with warm water, poured into the barrel and stirred thoroughly. The mixture is then ready for use. The addition of the lime prevents the poison from scorching the foliage.

**Arsenate of Lead**—Arsenate of soda, 10 ounces; acetate of lead, 24 ounces; water, 150 to 200 gallons. The arsenate of soda and the acetate of lead (sugar of lead) should be dissolved separately and then poured into a tank containing the required amount of water. A white precipitate of lead arsenate is immediately formed, and when thoroughly stirred is ready for spraying. Its finely divided conditions keeps it in suspension for hours and thus simplifies the work of spraying.

#### COMMON INSECTS.

**Cut worms**—Cut worms do most damage to plants soon after they are set out in the spring. They also get in their work in June and July, there being several kinds of cut worms. The best way to get rid of the worms is to sprinkle poison bran mash over the ground about each plant so as to extend slightly beneath the soil and an inch or two above will make the plants safe from cut worms.

**Melon Aphis**—This is one of the hardest insects to deal with. A soap and tobacco wash is recommended. Fumigation with carbon bisulphid has also been tried successfully; an air-tight bucket or other vessel is turned over the plant and about a teaspoonful of the chemical evaporated underneath.

**Striped Cucumber Beetles**—As soon as these beetles appear spray the plants heavily every few days with Bordeaux mixture and arsenate of lead. Where only a few hills of cucumbers, squashes, pumpkins or melons, which are most commonly attacked by these beetles, are planted, the safest way is to protect the plants with small frames covered with cheese cloth. These must be on before the beetles get any chance to attack the plants, and should be left on until they are too large for the limited space within the frames.

**Root-Maggots**—Use carbolic acid emulsion or white hellebore. Pour directly upon the growing plants, and around the roots of such plants as cabbage every week from the time they are set out until about the end of June.

**Cabbage Worms**—Dust the plants thoroughly, when the dew is on, with Paris green and flour in the proportion of 1 pound of Paris green to 50 pounds of flour. Arsenate of lead, 3 pounds to 40 gallons of water and 2 to 3 pounds of fresh air slacked lime may be sprayed over the plants instead of dusting them with Paris green and flour. After the cabbage heads have begun to form use fresh pyrethrum powder, spraying it over the plants, instead of using Paris green.

**Flea-Beetles**—Spray the plants with poison Bordeaux mixture. In order to get the spray to adhere to the smooth surface of the plants it may be necessary to add a sticker. This may be made by boiling together 2 pounds of resin, 1 pound of soda and 1 gallon of water, boiling in an iron pot in the open until a clear brown liquid is formed. This may require from one to two hours. This sticker is sufficient for 40 gallons of the Bordeaux.

**Colorado Potato Beetle**—Spray with Paris green or arsenate of lead combined with Bordeaux mixture.

In fighting any insect pest it should be understood that pre-

vention is always easier than cure. Clean cultivation and crop rotation will do much toward lessening the danger from insects. After "the bugs" do appear, the fight against them must be won at once, if at all.

#### FINAL SETTLEMENT.

Notice is hereby given to all creditors and other persons interested in the estate of Sarah Virginia Row, deceased, that the undersigned administrator will apply to make final settlement of said estate at the May term, 1913, of the probate court of Lafayette County, Missouri, to be begun and held at the probate court room in the city of Lexington on the second Monday in May 1913.

P. S. READ,  
Administrator.

#### FINAL SETTLEMENT.

Notice is hereby given to all creditors and other persons interested in the estate of James C. Hooton, deceased, that the undersigned administrator will apply to make final settlement of said estate at the May term, 1913, of the probate court of Lafayette County, Missouri, to be begun and held at the probate court room in the city of Lexington, on the second Monday in May 1913.

JOHN J. SKINNER,  
Administrator with will annexed.

#### FINAL SETTLEMENT.

Notice is hereby given to all creditors and other persons interested in the estate of John Hugh Leach deceased, that the undersigned executrix will apply to make final settlement of said estate at the May term 1913, of the probate court of Lafayette County, Missouri, to be begun and held at the probate court room in the city of Lexington, on the second Monday in May 1913.

ALICE LEACH,  
Executrix.

#### FINAL SETTLEMENT

Notice is hereby given to all creditors and other persons interested in the estate of John McFaddin deceased, that the undersigned administrators will apply to make final settlement of said estate at the May term 1913, of the Probate court of Lafayette County, Missouri, to be begun and held at the probate court room in the city of Lexington on the second Monday in May 1913.

Walter and Alva McFaddin  
Administrators.

#### EXECUTRIX'S NOTICE.

Notice is hereby given that letters testamentary on the estate of Frederick C. Kroll deceased, were granted to the undersigned on the 11th day of April, 1913, by the probate court of Lafayette County, Missouri. All persons having claims against said estate are required to exhibit them for allowance to the undersigned within six months after the date of said letters, or they may be precluded from any benefit of said estate; and if such claims be not exhibited within one year from the date of the last insertion of this publication they will be forever barred.

This 11th day of April, 1913.  
CARRIE D. KROLL,  
Executrix.

#### ADMINISTRATOR'S NOTICE.

Notice is hereby given, that letters of Administration on the estate of Laura Parker deceased, were granted to the undersigned on the 28th day of March 1913, by the probate court of Lafayette County, Missouri. All persons having claims against said estate are required to exhibit them for allowance to the undersigned within six months after the date of said letters, or they may be precluded from any benefit of said estate; and if such claims be not exhibited within one year from the date of the last insertion of this publication they will be forever barred.

This 28th day of March 1913.  
FRANK T. BOLTON,  
Administrator.

## Studebaker

"When I invest in a wagon I buy a Studebaker, then it's a safe investment"

Of course it is! Studebaker wagons are built on honor, with sixty years of wagon-building experience—and with every wagon goes a Studebaker guarantee.

You can't afford to have a dealer sell you some other wagon represented to be "just as good."

If you want a wagon that will last, run easily and stand up to its work, there is only one wagon to buy—and that's a Studebaker.

Don't trade ten extra years of service for a few dollars difference in price.

Studebaker wagons are made to fit every requirement of business or pleasure, in city, town or country.
